

Level 3 Award in Education and Training (EAT)

The qualification is the minimum standard for all those teaching in the learning and development sector. It introduces the knowledge and skill required by teachers to develop and deliver programmes, provide learners with support and be able to take responsibility in managing the learning process with adults. In response to recommendations made by a government-commissioned independent review panel, teaching qualifications have been simplified and renamed.

This qualification replaces the Level 3 Award in PTLLS.
